

PPDM™

Well Status and Classification Facets Version Comparison

The PPDM Association strives to retain continuity between versions of its standards and best practices as they evolve over time. This chart was designed to help you understand the correlations and differences between versions 2 and 3 of the Well Status and Classification Best Practice.

Version 2 is shown vertically on the left of each page, with the right side showing the corresponding facet information in Version 3. The reverse display shows general information, such as the primary audience for each facet, on the outside edges of each page. Detailed information for each version is easily compared at the center of the page. This will make it easier for readers to compare the versions at any level of detail.

Legend

- Corporate Internal Purpose

Business (operational) Internal Purpose
- Regulator Internal Purpose - may be shared to Business

Business and Regulatory Purpose

v2				v3								
For	Facet	Facet Value	Facet Value Qualifier	Facet Value Qualifier	Facet Value	Facet	For					
Regulators & Operators	Fluid Direction	Inflow		Inflow		Fluid Direction	Business and Regulators					
		Outflow		Outflow								
		Static		Static								
		Cyclic		Dual Flow								
	Fluid Abundance Qualifier	Fluid Type	Primary	Primary		Product Significance						
		Fluid Type	Secondary	Secondary								
				Tertiary								
		Fluid Type	Show	Show								
		Fluid Type	Trace	Deprecated								
	Fluid Type	Bitumen		Deprecated		Product Type						
		Condensate		Deprecated								
		Gas	Acid Gas	Acid Gas	Gas							
			Butane	Butane								
			CSH12 - Pentane Plus	Pentanes Plus								
			Carbon Dioxide	see Non-Hydrocarbon Gas								
			Coalbed Methane	Deprecated								
			Ethane	Ethane								
			Ethane Plus	Ethane Plus								
			Gas Condensate	Gas Condensate								
			Liquid Petroleum Gas	Liquid Petroleum Gas								
			Methane	Methane								
			Miscible	Deprecated								
			Pentane	Pentane								
			Propane	Propane								
				Geothermal								
		Gas Hydrate		Deprecated								
		Gas & Condensate		Deprecated								
		Mineral		Lithium	Mineral							
				Magnesium								
				Potash								
				Mineral Salts								
				Sulphur				Sulfur				
				Uranium	Uranium							
				Air	Air							
					Carbon Dioxide							
				H2S	Hydrogen Sulfide							
				Helium	Helium							
		Non Hydrocarbon Gas		Hydrogen	Hydrogen							
				Nitrogen	Nitrogen							
	Oxygen			Oxygen								
	Bitumous			Bitumen								
	Fine Light			Fine Light								
	Oil		Heavy	Heavy								
			Light	Light								
			Medium	Medium								
			Naphtha	Naphtha								
			Premium Light	Premium Light								
			Sour Crude	Deprecated								
			Sweet Crude	Deprecated								
			Synthetic Crude	Deprecated								
			Oil & Condensate		Deprecated							
			Oil & Gas		Deprecated							
	Steam		Steam									
	Sour Gas		Deprecated									
	Water		Alkaline Water	Alkaline	Water							
			Brackish	Brackish								
			Brine	Brine								
			Combination	Combination								
			Fresh	Fresh								
			Salt	Salt								
			Source	Deprecated								
			Steam	Now a Facet Value								
			Waste	Deprecated								
			WAG			Deprecated						
			WAS			Deprecated						
			Play Type	Conventional		Conventional		Play Type				
				Shale Gas		Shale Oil			Shale			
	Oil Sands, In Situ			Shale Gas	Oil Sands							
	Oil Sands, Mineable			In Situ								
	Coalbed Methane			Coalbed Methane								
	Tight Sand			Tight Sand								
	Geothermal			Non-hydrocarbon								
	Carbon Dioxide			Carbon Capture and Storage								
	Gas Hydrate			Gas Hydrate								
	Sub-Salt			Sub-Salt								
	Role	Produce	n/a	Produce		Role						
		Inject	Non-Conventional	Single Product	Inject							
		Cycle		Multiple Products	Produce/Inject							
				Simultaneous								
		Service		Cyclic	Service							
				Supply				Supply				
				Storage				Storage				
				Disposal				Disposal				
				Relief	Relief							
				Observation	Observation							
	Deprecated											
	No Role											
	Research	Strat Hole	Research									
	Trajectory	Vertical		Vertical		Profile Type						
		Directional		Slant Hole	Inclined							
				S-Shaped				S-type
